### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Freeman on 4/12/2006.

The application has been amended as follows:

#### IN THE CLAIMS:

Claim 1, line 1, after, "effective amount of" insert, ---an isolated and purified---, line 2, delete "a plant" and insert, ---an aerial part of---.

The following is an examiner's statement of reasons for allowance: it is clear from the specification that the claimed trans-tetracos-15-enoic acid is extracted using a very involved procedure from *Indigofera tinctoria*. The procedure involves fractionating among other procedures which would make the selection of the particular fraction

containing the claimed acid a very specific one. Thus, it is a very involved process of isolation and purification of the claimed acid from the claimed plant. Thus, to use the many different solvents and procedural steps is not trivial and thus the claimed acid is only obtained through such non-obvious steps which are neither anticipated nor rendered obvious by the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael V. Meller whose telephone number is 571-272-0967. The examiner can normally be reached on Monday thru Thursday: 9:30am-6:00pm.
